ABOUT US

Our company is the result of a long journey that began in 1975 when our founder, Hüseyin Büyükbayram, entered the sector.

Hüseyin Büyükbayram is a respected and skilled individual in the shotgun industry, known for his years of experience and expertise. He has earned a prominent place as one of the leading masters in the field. This deep knowledge and experience,

combined with the establishment of HAMLE Arms in 2013, has rapidly propelled us to the top ranks of the industry.

Always committed to quality and innovation, our company produces hunting and sporting shotguns using the latest technology.

These products have found their place not only in Turkey but also in many countries around the world, including the United States. Providing our customers with high-standard products, delivering them on time, and offering comprehensive after-sales services have always been our top priorities. As HAMLE Arms, we take pride in offering world-class quality in the field of hunting and sporting shotguns, and we are confidently moving forward into the future, guided by the knowledge and vision passed down from our founder.
